

Name of the project area:

Linudden

Surface area (ha): 11.000

EU protection status:

SPA NATURA 2000 Code :

pSCI X NATURA 2000 Code : SE0220119

Nature conservation (Woodland 75% and husbandry 25).

The land is owned by the municipally.

Main land uses and ownership status of the project area:

The area is situated south east of the city Nyköping. Most of the area is a nature reserve since 1947. The purpose of the reserve was to conserve and protect a botanically rich area. The grove is surrounded by fields and pastures. The Natura 2000 area extends beyond the grove also open meadows west of the sanctuary, facing the sea.

Large parts of the northwest was just a few hundred years ago seabed. The deciduous forest stand has its origins in a wooded pasture. It was grazed until the 1930's. During the 1980s clearing in the southern part of the deciduous forest was done.

The meadows have a history of previous grazing, more or less intense. Grazing ceased in 1930 but resumed in the early 1990s. The pastures are wooded by lime trees and have a rich flora.

Scientific description of project area:

The project will adress threats from overgrowing of grassland habitats and grazed forests by measures included in action C1, targeting 0.8 ha.

Habitats that will be improved by action C1:

6410: 0.4 ha

Other grassland: 0.4 ha

Uniform forest stands will be improved by measures in action C7, in total 2.0 ha.

Habitats that will be improved by action C7:

9020: 2.0 ha
